It is expected that the Registrant's sales and cost of sales be approximately \$22.1 million and approximately \$17.1 million for the year ended December 31, 2008 compared to \$29.0 million and \$26.5 million for the year ended December 31, 2007, respectively. Net loss is expected to be approximately \$6.6 million for the year ended December 31, 2008 compared to net loss of \$5.6 million for the year ended December 31, 2007. The decrease in sales and cost of sales recorded in this year compared to those for the year ended December 31, 2007 were attributable to a \$1.9 million decrease in sales of our coatings products as a result of a decrease in demand from oil drilling applications and a \$5.1 million decrease in sales of parts manufactured from bulk Liquidmetal alloys to consumer electronics customers as a result of increased reliance on licensees to manufacture and sell bulk Liquidmetal alloy parts. The increase in net loss compared to that of the year ended December 31, 2007 was primarily attributable to a decrease in benefit from the change in value of warrants and embedded conversion feature of our convertible debt of \$8.0 million primarily from fluctuations in our stock price.
