It is expected that the Registrant's sales and cost of sales be approximately \$3.6 million and approximately \$2.1 million for the three months ended March 31, 2009 compared to \$6.8 million and \$4.9 million for the three months ended March 31, 2008, respectively. Net loss is expected to be approximately \$2.8 million for the three months ended March 31, 2009 compared to net loss of \$1.8 million for the three months ended March 31, 2008. The decrease in sales and cost of sales recorded in this quarter compared to those for the three months ended March 31, 2008 were attributable to a \$1.8 million decrease in sales of parts manufactured from bulk Liquidmetal alloys to consumer electronics customers as a result of decrease in demand from electronic casings applications, a \$1.1 million decrease in sales of our coatings products as a result of a decrease in demand from oil drilling applications, and a \$0.3 million decrease from our research and development contracts. The increase in net loss compared to that of the three months ended March 31, 2008 was primarily attributable to an increase in interest expense recognized on our convertible notes.
