OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 001-31332

LIQUIDMETAL TECHNOLOGIES, INC.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

33-0264467
(I.R.S. Employer
Identification No.)

30452 Esperanza
Rancho Santa Margarita, CA 92688
(address of principal executive office, zip code)

Registrant's telephone number, including area code: **(949) 635-2100**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for at least the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of common shares outstanding as of August 20, 2010 was 84,763,339.

Statements in this report concerning the future sales, expenses, profitability, financial resources, product mix, market demand, product development and other statements in this report concerning the future results of operations, financial condition and business of Liquidmetal Technologies, Inc. are “forward-looking” statements as defined in the Securities Act of 1933 and Securities Exchange Act of 1934. Investors are cautioned that the Company’s actual results in the future may differ materially from those projected in the forward-looking statements due to risks and uncertainties that exist in the Company’s operations and business environment, including competition, need for increased acceptance of products, ability to continue to develop and extend our brand identity, ability to anticipate and adapt to a competitive market, ability to effectively manage rapidly expanding operations, amount and timing of operating costs and capital expenditures relating to expansion of our business, operations and infrastructure, ability to provide superior customer service, dependence upon key personnel and the like. The Company’s most recent filings with the Securities and Exchange Commission, including Form 10-K, contain additional information concerning many of these risk factors, and copies of these filings are available from the Company upon request and without charge.

[Table of Contents](#)**LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

For the Three Months Ended March 31, 2010 and 2009

(in thousands, except share data)

(unaudited)

1. Basis of Presentation / Description of Business

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“generally accepted accounting principles”) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. All intercompany balances and transactions have been eliminated. Operating results for the three months ended March 31, 2010 are not necessarily indicative of the results that may be expected for any future periods or the year ending December 31, 2010. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the Company’s Form 10-K filed with the Securities and Exchange Commission on August 20, 2010.

Liquidmetal Technologies, Inc. (“Liquidmetal Technologies”) and its subsidiaries (collectively “the Company”) are in the business of developing, manufacturing, and marketing products made from amorphous alloys. Liquidmetal Technologies markets and sells Liquidmetal® alloy industrial coatings and also manufactures, markets and sells products and components from bulk Liquidmetal alloys that can be incorporated into the finished goods of its customers across a variety of industries. The Company also partners with third-party licensees and distributors to develop and commercialize Liquidmetal alloy products.

The Company classifies operations into two reportable segments: Liquidmetal alloy industrial coatings and bulk Liquidmetal alloys (see Note 10). Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipes used by the oil drilling industry and boiler tubes used by coal-burning power plants. Bulk Liquidmetal alloys include potential market opportunities to manufacture and sell products and components for electronic devices, medical devices, defense applications, and sporting goods. In addition, the bulk Liquidmetal alloys segment includes tooling and prototype sampling. Furthermore, such alloys are used to generate research and development services revenue for developing uses related primarily to defense and medical applications as well as potential license fees, royalties, and other compensation from strategic partnering transactions.

In July 2007, the Company transferred substantially all of the assets of its Liquidmetal alloy industrial coatings business to a newly formed, newly capitalized subsidiary named Liquidmetal Coatings, LLC, a Delaware limited liability company (“LMC”), and LMC assumed substantially all of the assets and liabilities of the coatings business. The transfer included the thermal spray coatings assets and liabilities acquired under a purchase agreement with Foster Wheeler Energy Services in June 2007. The Company holds a 69.25% ownership interest in LMC. The results of operation of LMC are consolidated and comprise our Liquidmetal alloy industrial coatings segment for financial reporting purposes.

2. Basis of Presentation and Recent Accounting PronouncementsTranslation of Foreign Currency

The Company applies Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 830, *Foreign Currency*, for translating foreign currency into US dollars in our consolidation of the financial statements. Upon consolidation of the Company’s foreign subsidiaries into the Company’s consolidated financial statements, any balances with the subsidiaries denominated in the foreign currency are translated at the exchange rate at

period-end. The financial statements of Liquidmetal Technologies Korea have been translated based upon Korean Won as the functional currency. Liquidmetal Technologies Korea's assets and liabilities were translated using the exchange rate at period end and income and expense items were translated at the average exchange rate for the reporting period. The resulting translation adjustment was included in other comprehensive income (loss).

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three Months Ended March 31, 2010 and 2009

(in thousands, except share data)

(unaudited)

Recent Accounting Pronouncements

In June 2009, the FASB issued and subsequently codified Accounting Standards Update No. 2009-16, Transfer and Servicing (Topic 860) — Accounting for Transfers of Financial Assets (ASU 2009-16). ASU 2009-16 removes the concept of a qualifying special-purpose entity (QSPE) from SFAS 140, “Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities”, and removes the exception from applying FASB Interpretation 46R, “Consolidation of Variable Interest Entities”. This statement also clarifies the requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. The Company is currently evaluating the impact of adopting this standard on the consolidated financial statements.

In June 2009, the FASB issued and subsequently codified Accounting Standards Update No. 2009-17, Consolidations (Topic 810) — Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities (ASU 2009-17). ASU 2009-17 requires an analysis to determine whether a variable interest gives the entity a controlling financial interest in a variable interest entity. This statement requires an ongoing reassessment and eliminates the quantitative approach previously required for determining whether an entity is the primary beneficiary. The Company does not expect a material effect from the adoption of this standard on our consolidated financial statements.

In June 2009, the FASB issued SFAS 168, “The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles — a replacement of FASB Statement No. 162,” which will be effective for us on March 31, 2010. SFAS 168’s objective is to establish the FASB Accounting Standards Codification as the source of authoritative non-governmental accounting principles to be applied in the preparation of financial statements in conformity with US GAAP. Although SFAS 168 does not change GAAP, the adoption of SFAS 168 will impact our consolidated financial statements since all future references to authoritative accounting literature will be in accordance with SFAS 168.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, *Improving Disclosures about Fair Values Measurements (Topic 820) — Fair Value Measurements and Disclosures (ASU 2010-06)* to add additional disclosures for fair value measurements including the following: (1) amounts transferred in and out of Level 1 and 2 fair value measurements, which is effective for interim and annual reporting periods beginning after December 15, 2009 (“Part I”), and (2) activities in Level 3 fair value measurements including purchases, sales, issuances and settlements, which is effective for interim and annual reporting periods beginning after December 15, 2010 (“Part II”). The Company adopted Part I of the revised guidance for fair value measurements disclosures, which did not have a significant effect on our unaudited Condensed Consolidated Financial Statements, as of the beginning of fiscal 2010.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA and the SEC did not or are not believed by management to have a material impact on our company’s present or future consolidated financial statements.

3. Liquidity

The Company has experienced losses from continuing operations during the last three fiscal years and has an accumulated deficit of \$162,807 as of March 31, 2010. Cash provided by operations for the three months ended March 31, 2010 was \$246. As of March 31, 2010, the Company’s principal source of liquidity is \$1,167 of trade accounts receivable. Such conditions raise substantial doubt that the Company will be able to continue as a going concern. (see Note 14)

On May 1, 2009, the Company completed a financing transaction (the “Transaction”) whereby aggregate cash of \$2,500 and principal and accrued interest of \$20,625 due under the previously issued 8% Convertible Subordinated Notes due January 2010 (the “Prior Notes”) were exchanged for 500,000 shares of convertible Series A-1 Preferred Stock with an original issue price of \$5.00 per share, 2,625,002 shares Series A-2 Preferred Stock with an original issue price of \$5.00 per share, and \$7,500 of new 8% Senior Secured Convertible Subordinated Notes due January 2011 (the “Exchange Notes”). The

[Table of Contents](#)

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three Months Ended March 31, 2010 and 2009

(in thousands, except share data)

(unaudited)

Transaction was consummated pursuant to a Securities Purchase and Exchange Agreement, dated May 1, 2009 (the “Securities Purchase Agreement”), among the exchanging note holders and investors (collectively, the “Buyers”). The Securities Purchase Agreement gives the Buyers option to subscribe for an additional 1,000,000 shares of Series A-1 Preferred Stock at \$5.00 per share at any time prior to six months from the closing date (the “Series A-1 Option”). On August 5, 2010, the Company repaid in full all principal and interest on the Exchange Notes. All security interests in Company assets securing such obligations under the Exchange Notes were released and terminated. (See Note 7 and Note 14)

On May 28, 2010, the Company issued \$2,000 of 13% Subordinated Promissory Note (“January 2011 Subordinated Note”) due on the earlier date of January 3, 2011 or the date on which all outstanding amounts are due under the Company’s 8% January 2011 Notes. Following the due date, the interest on the Subordinated Note shall be 15%. The January 2011 Subordinated Note may be repaid in whole or in part at any time without penalty or premium, but is subordinate in right of payment to the January 2011 Notes and may not be paid until after the January 2011 Notes are paid in full. The company may, in its sole discretion, elect to pay all or any portion of the outstanding principal or accrued interest in cash or the Company’s common stock or any combination thereof, at a value equal to the lower of \$0.26 per share or the average market price per share for the 10 previous trading days immediately prior to the date the payment is made. As a condition for the January 2011 Subordinated Note, Carlyle Liquid Holdings, LLC, a current stockholder of the Company granted the holder of the January 2011 Subordinated Note a warrant to purchase up to 7,700,000 shares of the Company’s common stock at a price equal to \$0.26 per share, which warrant is exercisable for a period of 90-days beginning on the date in which the Company repays the January 2011 Subordinated Note in cash (if it repays in cash). On August 5, 2010, the Company repaid in full all principal and accrued interest of \$2,046 on the January 2011 Subordinated Note. In connection with the repayment, on August 10, 2010, the Company entered into a Subscription Agreement pursuant to which the Company issued 7,870,307 shares of the Company’s common stock for an aggregate price of \$2,046. (see Note 14)

Additionally, the Company has approximately \$305 of principal and accrued interest outstanding as of March 31, 2010, under the 8% unsecured subordinated notes (the “Bridge Notes”), which were due August 17, 2007. On August 5, 2010, the Company repaid in full all principal and accrued interest of \$314 on the Bridge Notes. (see Note 14)

The Company has \$287 of outstanding loan as of March 31, 2010 under a factoring, loan and security agreement with a financing company. In June 2009, the Company received a formal notice of default from the financing company for repayment of the outstanding loan balance and has entered into a settlement agreement with the financing company whereby it agreed to repay approximately \$100 each month until the outstanding loans and accrued fees have been repaid. As of March 31, 2010, the Company was unable to pay the \$100 monthly payments. On August 5, 2010, the Company repaid in full all principal, accrued interest and fees of \$309 on the factoring loan. All security interests in Company assets securing such obligations under the factoring loan were released and terminated. (see Note 14)

The Company has outstanding liens on assets by our South Korean subsidiary by various creditors for past-due trade payables totaling \$1,378, of which \$1,103 are held by creditors in South Korea, as of March 31, 2010. The Company is currently working to resolve the matter with each creditor by seeking a forbearance or compromise. If it cannot repay the amounts due or obtain forbearance or compromise, the creditors may seek to foreclose on the Company’s assets located in Korea. Such a foreclosure would have material adverse effect on its operations, financial condition, and results of operations.

4. Fair Value of Financial Instruments

The fair value of cash and cash equivalents and trade receivables approximates its carrying value due to its short maturity. The estimated fair value of long-term debt was determined by discounting future cash flows using rates currently available to us for debt with similar terms and remaining maturities.

[Table of Contents](#)

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS For the Three Months Ended March 31, 2010 and 2009 (in thousands, except share data) (unaudited)

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Entities are required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value based upon the following fair value hierarchy:

- Level 1 — Quoted prices in active markets for identical assets or liabilities;
- Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table summarizes the financial liabilities measured at fair value on a recurring basis as of March 31, 2010 and December 31, 2009:

	Level	March 31, 2010	December 31, 2009
Warrant Liabilities	2	\$ 2,191	\$ 3,975
Conversion Feature Liabilities	2	126	444

The warrant liabilities and conversion feature liabilities are recorded at fair value based on upon valuation models with utilize relevant factors such as expected life, volatility of the Company’s stock prices, risk free interest and dividend rate.

The Company calculated that the estimated fair value of the long term debt is not significantly different than the carrying value of the debt.

5. Inventories

Inventories are accounted for using the moving average basis and at standard cost, which approximate cost on a first-in, first-out basis and are valued at the lower of cost or market. Inventories were comprised of the following:

March 31, 2010	December 31, 2009
(Unaudited)	

Raw materials	\$	697	\$	675
Work in process		92		94
Finished goods		192		213
Total inventories	\$	<u>981</u>	\$	<u>982</u>

6. Product Warranty

Management estimates product warranties as a percentage of certain bulk alloy product sales earned during the period. As of March 31, 2010, the Company used 5% of bulk alloy product sales as an estimate of warranties to be claimed. The percentage is based on industry averages and historical information. Additionally, as of March 31, 2010 the Company used 1% of coatings applications sales as estimates of warranties to be claimed.

During the three months ended March 31, 2010 and 2009, the Company recorded \$13 and \$57 of net gain on warranty, respectively. The warranty accrual balance is included in accounts payable and accrued expenses.

7. Notes Payable

Unsecured Subordinated Notes

On May 17, 2006, September 21, 2006, and December 1, 2006, the Company issued 8% Unsecured Subordinated Notes due August 2007 in the aggregate principal amount of \$4,584 (the "August 2007 Subordinated Notes"). The August 2007 Subordinated Notes are unsecured and became due August 2007.

During 2007 and 2008, the Company retired \$1,925 and \$1,650 of the August 2007 Subordinated Notes, respectively. During the second quarter of 2009, the Company retired \$750 of the August 2007 Subordinated Notes.

As of both March 31, 2010 and December 31, 2009, the Company's gross outstanding loan balance of the August 2007 Subordinated Notes totaled \$259, and is included in current portion of long-term debt. As of March 31, 2010, the effective interest rate for the August 2007 Subordinated Notes was 8%. (see Note 14)

Secured Convertible Subordinated Notes

On January 3, 2007 and December 28, 2007, the Company issued 8% Convertible Subordinated Notes due January 2010 in the aggregate principal amount of \$17,300 (the "January 2010 Notes"). Additionally, during 2007, 2008 and 2009, the Company issued \$971, \$1,315, and \$723 of additional January 2010 Notes for accrued interest, respectively. The January 2010 Notes were convertible into the Company's common stock at \$1.10 per share.

On May 1, 2009, the January 2010 Notes were retired as part of a financing transaction (see Senior Secured Convertible Notes below).

The Company's gross outstanding loan balance of the January 2010 Notes totaled \$0 as of both March 31, 2010 and December 31, 2009. As of both March 31, 2010 and December 31, 2009, un-amortized discounts for conversion feature, warrants, and cash discount totaled \$0, and other asset debt issuance costs totaled \$0. Interest expense for the amortization of debt issuance cost and discount on note was \$0 and \$1,326 for the three months ended March 31, 2010 and 2009, respectively.

Pursuant to FASB ASC 815, *Derivatives and Hedging*, the Company is required to report a value of the conversion liability as a fair value and record the fluctuation to the fair value of the conversion feature liability to current operations. The change in the fair value of the conversion feature liability resulted in gains of \$0 and \$30 for three months ended March 31, 2010 and 2009, respectively.

Senior Secured Convertible Notes

On May 1, 2009, the Company completed a financing transaction (the "Transaction") whereby aggregate cash of \$2,500 and principal and accrued interest of \$20,625 due under the previously issued 8% Convertible Subordinated Notes due January 2010 (the "January 2010 Notes") were exchanged for 500,000 shares of convertible Series A-1 Preferred Stock with an original issue price of \$5.00 per share, 2,625,002 shares Series A-2 Preferred Stock with an original issue price of \$5.00 per share, and \$7,500 of new 8% Senior Secured Convertible Notes due January 2011 (the "January 2011 Notes"). Transaction was consummated pursuant to a Securities Purchase and Exchange Agreement, dated May 1, 2009 (the "Securities Purchase Agreement"), among the exchanging note holders and investors (collectively, the "Buyers"). The Securities Purchase Agreement gives the Buyers option to subscribe for an additional 1,000,000 shares of preferred stock at \$5.00 per share at any time prior to six months from the closing date. Additionally, 8,138,352 of previously issued warrants to purchase common shares held by holders of the January 2010 Notes have been cancelled in the Transaction.

The January 2011 Notes are due January 3, 2011 and bear annual interest rate of 8% with interest payable in October and April in cash or, at the Company's option, in the form of additional notes (in which case the interest rate will be 10%). (see Note 14) The preferred stocks accrue cumulative dividends at an annual rate of 8%, which is payable semi-annually.

12

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Three Months Ended March 31, 2010 and 2009
(in thousands, except share data)
(unaudited)

Beginning on the second anniversary of the initial issuance, the dividend will increase to 10%. As of March 31, 2010, the Company has accrued dividends of \$0.7 million included in accounts payable and other accrued expenses. The dividends are payable in cash or in kind by the issuance of the Company of additional preferred stock, only when and as declared by the Company's Board of Directors.

The Series A-1 Preferred Stock, Series A-2 Preferred Stock, and January 2011 Notes are convertible into the Company's common stock at conversion price of \$0.10, \$0.22, and \$0.60 per common share, respectively. The Company issued warrants to purchase 3,125,007 shares and 42,329,407 shares of the Company's common stock at an exercise of \$0.60 and \$0.50 per share to the buyers of the January 2011 Notes and preferred stocks, respectively. The warrants will expire on January 3, 2012. The conversion prices and the number of common stock issuable under the preferred stocks, January 2011 Notes and warrants are subject to adjustments for anti-dilution purposes.

In connection with the Transaction, the Company and the Buyers entered into a Registration Rights Agreement under which the Company is required, upon the written request of the holders of more than fifty percent (50%) of the securities underlying the January 2011 Notes, warrants, and preferred stocks, on or before 180 days after the closing of the Transaction, to file a registration statement with the SEC covering the resale of the shares of Company's common stock issuable pursuant to the January 2011 Notes, the warrants and the preferred stocks and to use its best efforts to have the registration declared effective at the earliest date (but in no event later than 60 days after filing if there is no SEC review of the registration statement, or 120 days if there is an SEC review). The Company may be required to pay liquidated damages as set forth in the Registration Rights Agreement, if the registration statement is not filed or does not become effective on a timely basis.

The redemption of the previously issued January 2010 Notes was treated as an extinguishment of debt in accordance with Emerging Issues Task Force No. 96-19, "Debtors Accounting for a Modification or Exchange of Debt Instruments." The Transaction resulted in a \$2,029 loss from extinguishment of debt, which consisted of write down of \$503 other asset deferred issue costs, \$5,487 debt discount, \$1,306 decrease in conversion feature liability of the extinguished notes, \$2,347 decrease in warrant liability from the warrants redeemed from holders of the January 2011 Notes, and \$308 write off of accrued fees.

In November 1, 2009 the Company issued \$378 of additional January 2011 Notes for accrued interest due under the notes in lieu of cash payments.

Pursuant to Accounting Standards Codification No. 815, "Accounting for Derivative Instruments and Hedging Activities," EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock," EITF 00-27, "Application of Issue No. 98-5 to Certain Convertible Instruments," and EITF 05-2 "The Meaning of 'Conventional Convertible Debt Instrument' in EITF Issue No. 00-19," the original fair value of the embedded conversion feature of \$3,367 have been recorded as conversion feature liability as the debt is considered nonconventional convertible debt. The original fair value was computed using the Black-Scholes model under the following assumptions: (1) expected life of 1.68 years; (2) volatility of 176%; (3) risk free interest of 0.92% and dividend rate of 0%. In addition, the Company is required to report a value of the conversion liability as a fair value and record the fluctuation to the fair value of the conversion feature liability to current operations.

The change in the fair value of the conversion feature liability resulted in gains of \$318 and \$0 for the three months ended March 31, 2010 and 2009, respectively. The fair value of conversion feature outstanding at March 31, 2010 and December 31, 2009 was \$126 and \$444, respectively. The fair value of conversion feature outstanding at March 31, 2010 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 0.8 years; (2) volatility of 130%, (3) risk free interest of 0.41% and dividend rate of 0%. The fair value of conversion feature outstanding at December 31, 2009 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 1.01 years; (2) volatility of 152%, (3) risk free interest of 0.5% and dividend rate of 0%.

Pursuant to EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock", the original fair values of the warrants of \$14,773 have been recorded as warrant liability, which was computed using the Black-Scholes pricing model under the following assumptions: (1) expected life of 2.67 years; (2) volatility of 176%; (3) risk free interest of 1.39% and (4) dividend rate of 0%.

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Three Months Ended March 31, 2010 and 2009
(in thousands, except share data)
(unaudited)

The original fair value of the embedded conversion feature of \$3,367 was recorded as discounts on the convertible notes and the original fair value of the warrants issued to buyers of the January 2011 Notes of \$999 was recorded as discounts of the convertible notes. The original fair value of warrants issued to buyers of preferred stocks of \$13,774 was recorded as reduction of additional paid-in capital. In addition, the Company incurred \$440 of direct costs relating to the Transaction, of which \$143 of was recorded as debt issuance cost in other assets relating to issuance of the convertible notes and \$297 was recorded as reduction of additional paid-in capital relating to the issuance of the preferred stocks.

The Company's gross outstanding loan balance of the January 2011 Notes totaled \$7,878 as of both March 31, 2010 and December 31, 2009. As of March 31, 2010 and December 31, 2009, un-amortized discounts for conversion feature and warrants totaled \$2,608 and \$3,227, respectively, and other asset

debt issuance costs totaled \$85 and \$104, respectively. Interest expense for the amortization of debt issuance cost and discount on note was \$450 and \$0 for the three months ended March 31, 2010 and 2009, respectively. The effective interest rate of the January 2011 Notes was 67% as of March 31, 2010.

Factoring Agreement

The Company entered into a Factoring, Loan, and Security Agreement (the "Agreement") with a financing company on April 21, 2005. All borrowings are secured by outstanding receivables specifically assigned to the financing company. Further, pursuant to a Continuing Guaranty Agreement, dated January 5, 2009, the outstanding borrowings are personally guaranteed by John Kang, the Company's Chairman. Assigned receivables are considered "Approved" or "Non-Approved" by the financing company. Borrowings made against non-approved receivables assigned are limited to \$1,000 and total borrowings made on approved and non-approved receivables assigned are limited to \$5,000.

Payments on assigned receivables are received directly by the financing company, and applied to outstanding advances. All outstanding advances and uncollected assigned receivables are subject to fees and interest charges ranging from 0.55% to 1.5% plus prime rate as published by the Wall Street Journal, with a minimum annual fee of \$30. All receivables assigned and advances made are subject to return and recall by the financing company, respectively. As such, the advances have been classified as short-term secured borrowings in accordance with FASB ASC 860, *Transfers and Servicing*.

For the three months ended March 31, 2010, the Company borrowed \$3 and repaid \$0 under the Agreement. The total outstanding advance made under the agreement is \$287 and \$284 as of March 31, 2010 and December 31, 2009, respectively, which is presented as short-term debt. The weighted average rate of interest for borrowings made under the Agreement was 6.5% for both the three months ended March 31, 2010 and 2009. In June 2009, the Company received a formal notice of default from the financing company for repayment of the outstanding loan balance and has entered into a settlement agreement with the financing company whereby it agreed to repay approximately \$100 each month until the outstanding loans and accrued fees have been repaid. As of March 31, 2010, the Company was unable to pay the \$100 monthly payments. (see Note 14).

Debt of Majority Owned Subsidiary

On July 24, 2007, the Company completed an \$11,500 financing transaction (the "Transaction") that provided funding to repay convertible notes previously issued by us that were scheduled to become due in July and August 2007. In the Transaction, the Company transferred substantially all of the assets of the Company's Liquidmetal Coatings division to a newly formed, newly capitalized subsidiary named Liquidmetal Coatings, LLC, a Delaware limited liability company ("LMC"), and LMC assumed substantially all of the liabilities of the division.

LMC was capitalized through a \$6,500 subordinated debt and equity investment by C3 Capital Partners ("C3") and a \$5,000 senior credit facility with Bank Midwest, N.A. This debt and equity resulted in cash proceeds of \$11,102 after related debt issuance costs of \$398, which proceeds LMC used to purchase all of the assets and liabilities from the Company. The Company incurred an additional \$459 in issuance costs directly related to the debt issuance. As a result, \$857 was recorded as deferred debt issuance costs to be amortized over the life of the debt. Interest expense for the amortization of debt issuance cost was \$44 and \$39 for the three months ended March 31, 2010 and 2009, respectively.

Table of Contents

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS For the Three Months Ended March 31, 2010 and 2009 (in thousands, except share data) (unaudited)

The Company retains a 69.25% ownership interest in LMC, C3 holds a 19% ownership interest, Larry Buffington, the Company's former President and CEO, (who also serves as the President and CEO of LMC) holds a 10% ownership interest, and CRESO Capital Partners ("CRESO"), the Company's financial advisor in the Transaction, holds a 1.75% ownership interest. The equity interests acquired by C3 and issued to CRESO were not considered a discount to debt, as the unconsolidated net assets of LMC were deemed to have an initial value of \$0 upon closing of the Transaction for financial accounting purposes. Further, LMC is fully responsible for the repayment of debt obligations.

Midwest Debt

In connection with the Transaction, LMC entered into a Loan Agreement (the "Loan Agreement"), dated July 24, 2007, with Bank Midwest, N.A. ("Midwest"). Following the Transaction, the Loan Agreement has been amended to renew and modify certain terms. The Loan Agreement, as amended on October 6, 2009 (the "Loan Amendment"), provides for total loan availability of \$5,025, consisting of a \$4,000 term loan and a revolving loan of up to \$1,025 based on a percentage of LMC's eligible receivable and inventory. The Loan Amendment adjusted, among other terms, the interest rate of all outstanding loans to a fixed rate of 9%, certain financial covenants under the Loan Agreement, maturity date of the revolving loan through June 30, 2010 with monthly interest payments, and required an immediate repayment of \$325 of the term loan and \$325 of the revolving loan. The members of the Liquidmetal Coatings, LLC (the "Members") were required to contribute \$650 in equity to repay the amounts due under the Loan Agreement (the "Capital Call"). On October 6, 2009 the Company paid \$450 which represented its portion of the Capital Call and the remaining Members paid \$150. As a result of the payment, the monthly amortization payments due under the term loan were reduced to \$47 and the maturity date was extended to September 30, 2012. The term loan has a maturity date of July 20, 2011. (see Note 14)

In connection with the Loan Amendment, the Company borrowed \$450 from C3 Capital Partners ("C3") to contribute its share of the Capital Call pursuant to a bridge loan agreement with C3. The Company paid down the bridge loan in November 2009.

LMC's obligations under the Loan Agreement are secured by a blanket security interest in all of LMC's assets and the Company's equity interest in LMC, and pursuant to an intercreditor agreement between the C3 and Midwest. Midwest's security interest in the assets is senior to C3's security interest in the same assets.

As of March 31, 2010 and December 31, 2009, the gross outstanding loan balance under the term loan totaled \$1,289 and \$1,430, respectively, and the gross outstanding loan balance under the revolving loan totaled \$450 and \$307, respectively. The loans are presented as long-term debt and short-term debt on the

Company's consolidated balance sheet, respectively. Interest expense incurred under the term loan and revolving loan totaled \$20 and \$6 for the three months ended March 31, 2010 respectively. Interest expense incurred under the term loan and revolving loan totaled \$54 and \$8 for the three months ended March 31, 2009, respectively. (see Note 14)

Additionally, LMC entered into Promissory Notes, dated August 29, 2007 and October 21, 2008 (the "Capital Loan"), with Midwest to provide for \$45 and \$105 to be used towards the purchase of a company truck and HVOF spray equipment with annual interest rates of 7.43% and 8.25%, respectively. The Capital Loan has maturity dates of September 1, 2012 and November 1, 2013. LMC is required to make monthly principal and interest payments of \$3 per month. As of March 31, 2010 and December 31, 2009, the gross outstanding loan balance under the Capital Loan totaled \$94 and \$102, respectively, which is presented as long-term debt on the Company's consolidated balance sheet. Interest expense incurred under the Capital Loan totaled \$2 and \$3 for the three months ended March 31, 2010 and 2009, respectively. (see Note 14)

C3 Debt

In the Transaction, LMC also entered into a Securities Purchase Agreement, dated July 24, 2007 (the "Securities Purchase Agreement"), with C3 Capital Partners, L.P. ("C3"), C3 Capital Partners II, L.P. ("C3 II", and with C3, the "C3 entities"), and Liquidmetal Coatings Solutions, LLC, a wholly owned subsidiary of LMC that will operate the thermal spray coatings business ("LMCS"). Pursuant to the Securities Purchase Agreement, LMC issued to the C3 entities subordinated promissory notes in the

[Table of Contents](#)

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS For the Three Months Ended March 31, 2010 and 2009 (in thousands, except share data) (unaudited)

aggregate principal amount of \$6,500 (the "Subordinated Notes"). Under the Securities Purchase Agreement, the C3 entities have the right, beginning on the July 24, 2012 (or, if earlier, upon a default by LMC under the Subordinated Notes or Securities Purchase Agreement) to require LMC to purchase the C3 entities' membership interests in LMC for a purchase price equal to their pro rata portion of the greater of (i) the appraised fair market value of LMC or (ii) six times LMC's trailing 12-month earnings before interest, taxes, depreciation, and amortization, less funded debt.

The Subordinated Notes have a maturity date of July 20, 2012 with no required principal payments before maturity other than upon specified triggering events, such as a change in control of LMC. Interest accrues at an annual rate of 14%, with 12% interest being payable monthly beginning September 2007 and the remaining 2% interest being payable at maturity. In connection with the Securities Purchase Agreement and the Subordinated Notes, the Company and LMC entered into pledge agreements with the C3 entities in which the Company pledged its membership interest in LMC to secure the obligations under the notes and LMC pledged its membership interests in LMCS to secure its obligations under the notes. LMC and LMCS also granted to C3 a blanket security interest in all of their assets to secure their obligations under the Subordinated Notes.

The gross outstanding loan balance including accrued interest payable upon maturity of the Subordinated Note totaled \$7,882 and \$7,613 as of March 31, 2010 and December 31, 2009, respectively. Interest expense incurred under the Subordinated Notes totaled \$231 and \$201 for the three months ended March 31, 2010 and 2009, respectively.

8. Stock Compensation Plan

During the three months ended March 31, 2010, there were no options granted under the Company's 2002 Non-employee Director Stock Option Plan which provides for the grant of stock options to non-employee directors. Further, all options granted under this plan had exercise prices that were equal to the fair market value on the date of grant.

During the three months ended March 31, 2010, there were no options granted under the Company's 2002 Equity Incentive Plan which provides for the grant of stock options to officers, employees, consultants and directors of the Company its subsidiaries. Further, all options granted under this plan had exercise prices that were equal to the fair market value on the date of grant.

The Company cancelled 85,756 options during the three months ended March 31, 2010, for terminated employees and options expired.

9. Preferred Units of Subsidiary

On February 22, 2008, LMC completed a transaction under which it issued and sold \$2,500 in preferred membership units to two minority members of LMC (the "Preferred Units Transaction"). Immediately following the sale of the preferred membership units, the subscription proceeds (after a 1% transaction fee) were distributed to LMC's common unit members, and as a result of such distribution, the Company received approximately \$1,714 in the distribution. The preferred units issued by LMC have an accruing priority return of 14% per year that are priority over any distribution made by LMC and may be redeemed at any time within four years of issuance through cash payment or distribution in excess of the 14% priority return. If LMC fails to redeem the preferred units on or before the second anniversary of the issue date, the preferred units will receive an additional 200 common membership units (equal to 2% of the currently outstanding common units) per quarter until the preferred units are redeemed in full.

As of March 31, 2010, LMC has redeemed \$236 of its preferred units and distributed \$294 in priority return to the preferred unit holders. The total preferred units outstanding are \$2,264 as of March 31, 2010.

10. Segment Reporting and Geographic Information

ASC 280, *Segment Reporting*, requires companies to provide certain information about their operating segments. In April 2002, the Company began classifying operations into two reportable segments: Liquidmetal alloy industrial coatings and bulk Liquidmetal alloys. The Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipe used by the oil drilling industry and boiler tubes used by coal burning power plants. Bulk Liquidmetal alloys include market opportunities to manufacture and sell casing components for electronic devices, medical devices, sporting goods, tooling, prototype sampling, defense applications and metal processing equipment. Primarily, the expenses incurred by the bulk Liquidmetal alloy segment are research and development costs and selling expenses associated with identifying and developing market opportunities. Bulk Liquidmetal alloys products can be distinguished from Liquidmetal alloy coatings in that the bulk Liquidmetal alloy can have significant thickness, up to approximately one inch, which allows for their use in a wider variety of applications other than a thin protective coating applied to machinery and equipment. Revenue and expenses associated with research and development services and product licensing arrangements are included in the bulk Liquidmetal alloy segment. The accounting policies of the reportable segments are the same as those described in Note 3 to the consolidated financial statements included in the Company's Form 10-K filed with the Securities and Exchange Commission on August 20, 2010.

Summarized financial information concerning the Company's reportable segments is shown in the following tables:

	<u>Coatings</u>	<u>Bulk Alloy</u>	<u>Segment Totals</u>
Three months ended March 31, 2010			
Revenue to external customers	\$ 2,546	\$ 157	\$ 2,703
Gross profit	817	(270)	547
Total segment loss	(136)	(560)	(696)
Total identifiable assets at end of period	2,562	5,984	8,546
Three months ended March 31, 2009			
Revenue to external customers	\$ 2,487	\$ 1,105	\$ 3,592
Gross profit	913	538	1,451
Total segment income	22	214	236
Total identifiable assets at end of period	2,707	7,257	9,964

Reconciling information between reportable segments and the Company's consolidated totals is shown in the following table:

[Table of Contents](#)

(unaudited)

	<u>For the Three Months Ended March 31,</u>	
	<u>2010</u>	<u>2009</u>
Total segment income	\$ (696)	\$ 238
General and administrative expenses, excluded	(643)	(939)
Consolidated loss before interest, income taxes, and noncontrolling interests	\$ (1,339)	\$ (701)
Change in value of warrants, gain	1,785	(126)
Change in value of conversion feature, gain	318	30
Interest expense	(836)	(1,973)
Interest income	—	—
Income taxes	—	—
Loss (income) attributable to noncontrolling interest	42	(31)
Consolidated net loss attributable to Liquidmetal Technologies, Inc.	<u>\$ (30)</u>	<u>\$ (2,801)</u>

Excluded general and administrative expenses are attributable to the Company's corporate headquarters. These expenses primarily include corporate salaries, consulting, professional fees and facility costs. Research and development expenses are included in the operating costs of the segment that performed the research and development.

Revenues from sales to companies in the United States were \$2,187 and \$2,731 during the three months ended March 31, 2010 and 2009, respectively. The revenue related to the United States of America was earned under defense-related research and development contracts, sales of coatings products, and sales of Liquidmetal bulk alloy products.

During the three months ended March 31, 2010, the Company had revenue from sales to companies outside of the United States of \$516, of which \$1 represented sales to companies located in South Korea. During the three months ended March 31, 2009, the Company had revenues from companies outside

of the United States of \$860 of which \$432 represented sales to companies located in South Korea. The revenue related to sales to companies outside of the United States was from coating materials.

Long-lived assets include net property, plant, and equipment, and net intangible assets. The Company had long-lived assets of \$2,051 and \$1,968 located in the United States at March 31, 2010 and December 31, 2009, respectively. The Company had long-lived assets of \$4,875 and \$4,931 located in South Korea at March 31, 2010 and December 31, 2009, respectively.

Reconciling information between reportable segments and the Company's consolidated totals is shown in the following table:

	<u>March 31,</u> <u>2010</u>
Total segment assets	\$ 8,546
Cash and cash equivalents	8
Prepaid expenses and other current assets	67
Other property, plant and equipment	53
Intangibles, net	1,199
Other assets	376
Total consolidated assets	<u>\$ 10,249</u>

Assets excluded from segment assets include assets attributable to the Company's corporate headquarters. The Company's largest corporate assets consist of intangible assets, which consist primarily of the Company's patents and trademarks.

LIQUIDMETAL TECHNOLOGIES AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three Months Ended March 31, 2010 and 2009

(in thousands, except share data)

(unaudited)

11. Income (Loss) Per Common Share

Basic earnings per share ("EPS") is computed by dividing earnings (loss) attributable to common shareholders by the weighted average number of common shares outstanding for the periods. Diluted EPS reflects the potential dilution of securities that could share in the earnings.

Options to purchase 4,304,126 shares of common stock at prices ranging from \$0.09 to \$15.00 per share were outstanding at March 31, 2010, but were not included in the computation of diluted EPS for the same period as the inclusion would have been antidilutive. Warrants to purchase 59,928,242 shares of common stock with prices ranging from \$0.50 to \$1.75 per share outstanding at March 31, 2010, were not included in the computation of diluted EPS for the same period as the inclusion would have been antidilutive. 13,130,137 shares of common stock issuable upon conversion of the Company's convertible notes with conversion prices of \$0.60 per share outstanding at March 31, 2010 were not included in the computation of diluted EPS for the same period because the inclusion would have been antidilutive. Additionally, 90,901,432 shares of common stock issuable upon conversion of the Company's convertible preferred stocks with conversion prices ranging from \$0.10 and \$0.22 per share outstanding at March 31, 2010 were not included in the computation of diluted EPS for the same period because the inclusion would have been antidilutive.

Pursuant to EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock", the Company is required to report a value of the warrant as a fair value and record the fluctuation to the fair value of the warrant liability to current operations. The change in the fair value of the warrants resulted in gains of \$1,785 for the three months ended March 31, 2010, and losses of \$126 for the three months ended March 31, 2009. The fair value of warrants outstanding at March 31, 2010 of \$2,191 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 0.20 to 4.58 years; (2) volatility of 130%, (3) risk free interest of 0.16% to 2.55%, and dividend rate of 0%. The fair value of warrants outstanding at December 31, 2009 of \$3,975 was computed using the Black-Scholes model under the following assumptions: (1) expected life of 0.45 to 4.83 years; (2) volatility of 152%, (3) risk free interest of 0.20% to 2.69%, and dividend rate of 0%.

12. Commitments and Contingencies

The Company is from time to time a party to certain legal proceedings arising in the ordinary course of business. Although outcomes cannot be predicted with certainty, the Company does not believe that any legal proceeding to which it is a party will have a material adverse effect on the Company's financial position, results of operations, and cash flows.

On June 26, 2006, the Company entered into a joint venture agreement with SAGA, SpA in Padova, Italy, ("SAGA") a specialist precision parts manufacturer (See Note 14). The joint venture is named Liquidmetal SAGA Italy, Srl ("LSI"). The Company also entered into an exclusive manufacturing license agreement for the eyewear industry with LSI. Under the joint venture agreement, the Company has option to buy ownership interest in LSI, initially, of 19.9% to up to 50%. In December 2006, the Company exercised the 19.9% interest in LSI and will have two years to purchase the additional interest at a nominal price. In January 2007 and June 2007, the Company contributed additional \$217 and \$86, respectively, into LSI as additional investment. The contribution did not change the Company's 19.9% interest in LSI. Under the licensing agreement, at any time following 18 months after the effective date of the agreement, LSI may exercise its option to sell to the Company certain business assets including manufacturing equipment acquired under the joint venture. During the fourth quarter of the year ended December 31, 2009, the Company wrote-off its investment of \$306 in the joint venture due to lower than anticipated growth in the eye wear industry. During 2009, 2008 and 2007, the Company recognized revenues of \$0, \$0, and \$103, respectively, of Liquidmetal alloys sold to LSI for use in the joint venture. There were no alloys sold to LSI during the three months ended March 31, 2010. (see Note 14)

The Company has outstanding liens on assets by our South Korean subsidiary by various creditors for past-due trade payables totaling \$1,378, of which \$1,103 are held by creditors in South Korea, as of March 31, 2010. We are currently working to resolve the matter with each creditor by seeking a

13. Related Party Transactions

During 2009, John Kang, former Chairman of the Company, advanced the Company \$250 to fund working capital needs. The Company repaid \$120 of the advance and has \$130 outstanding as of March 31, 2010, which is included in short-term debt. Further, Mr. Kang entered into a Continuing Guarantee Agreement, dated January 5, 2009, to personally guarantee repayment of the Company's outstanding borrowings made under a Factoring Agreement (see Note 7).

In May 2009, the Company completed a transaction in which (i) the holders of our 8% Convertible Subordinated Notes exchanged such notes for a combination of new 8% Senior Secured Convertible Notes (the "January 2011" Notes) and shares of a new series of convertible preferred stock designated "Series A-2 Preferred Stock", together with warrants thereon, and (ii) certain investors purchased, for an aggregate purchase price of \$2,500, shares of a new series of convertible preferred stock designated as "Series A-1 Preferred Stock" (see Note 7). The lead investors in this transaction were Carlyle Liquid, LLC and Carlyle Liquid Holdings, LLC (the "Carlyle Entities"), which are two investor entities organized by Abdi Mahamedi and Jack Chitayat. Mr. Mahamedi became a director and greater-than-5% beneficial owner of the company by reason of the May 2009 transaction, and Jack Chitayat is a former director of the Company who became a greater-than-5% beneficial owner of our company by reason of the May 2009 transaction. Mr. Mahamedi and Mr. Chitayat have shared voting and investment control over the shares held by the Carlyle Entities due to the fact that other entities owned by them are the managing members of these two Carlyle entities. Additionally, Mr. Iraj Azarm and Mr. Robert Biehl, directors of the Company, are passive investors in the Carlyle Entities.

The Company has an exclusive license agreement with LLPG, Inc. ("LLPG"), a corporation headed by Mr. Chitayat. Under the terms of the agreement, LLPG has the right to commercialize Liquidmetal alloys, particularly precious-metal based compositions, in jewelry and high-end luxury product markets. The Company, in turn, will receive royalty payments over the life of the contract on all Liquidmetal products produced and sold by LLPG. The Company recognized revenues from product sales and licensing fees of \$0 and \$195 from LLPG during the three months ended March 31, 2010 and 2009, respectively. There are no accounts receivable from LLPG outstanding as of March 31, 2010 and December 31, 2009.

As of March 31, 2010 and December 31, 2009, Ricardo Salas, the Company's Executive Vice President, held \$259 of the unsecured subordinated notes for both periods. Mr. Salas advanced the Company \$210 and \$175 during 2010 and 2009, respectively, to meet working capital needs and accrues interest at an annual rate of 10%. As of March 31, 2010 \$385 is outstanding and is included in short-term debt.

On June 1, 2007, the Company entered into a transaction with Grace Metal (currently Liquidmetal Korea Co., Ltd. "LMK"), under which (i) LMK agreed to purchase various equipments (including die casting machines and vacuum induction melters) used in the Company's bulk amorphous alloy business segment and (ii) the Company granted LMK a 10-year exclusive license to manufacture products made from bulk Liquidmetal alloys for customers whose principal headquarters or whose major operations are located in South Korea. LMK was formed by an investor group that includes the former director and officer of the Company, James Kang, who is also the brother of John Kang, former Chairman of the company. Under an equipment purchase agreement between the Company and LMK, LMK agreed to buy the purchased equipment for a total purchase price of \$2,000. The equipment purchase agreement provides that delivery of the equipment can be delayed to accommodate the Company's continuing manufacturing needs, and it also provides that the Company will retain a security interest in the purchased equipment until full payment of the purchase price.

In consideration of the license agreement with LMK, the Company will be entitled to royalty of 10% of LMK's net sales of licensed products (unless LMK's margin on the products falls below specified levels, in which case a new royalty will be negotiated in good faith). Effective June 1, 2008, the royalty rate was adjusted to 5%. The agreement provides that the Company may convert the license to a non-exclusive in the event that the net sales in the second year of the contract or thereafter are not sufficient to result in royalties of \$500 or more per year. The agreement also provides that LMK will be required to purchase all alloy feedstock from the Company, and the Company will have the right to continue to manufacture Liquidmetal alloy products for South Korean customers until all purchased equipment has been commissioned. Subsequent to March 31, 2010, the licensing agreement with LMK was terminated on June 15, 2010.

(unaudited)

The Company purchased production supplies and outsourced production of certain bulk alloy production with LMK. In June 2008, the Company began sharing the use of its manufacturing facility and production equipment in Pyongtaek, South Korea, with LMK as the Company began significant outsourcing of its bulk alloy parts production. The Company incurred expenses for purchase of production supplies and outsourcing fees of \$0 and \$181 during the three months ended March 31, 2010 and 2009, respectively. There are \$0 included in accounts payable and accrued expenses for both March 31, 2010 and December 31, 2009 for outstanding trade payables due to LMK. The Company recognized revenue from sales of raw materials and royalties for a total of \$0

and \$623 during the three months ended March 31, 2010, and 2009, respectively. There are \$0 included in net accounts receivables as of both March 31, 2010 and December 31, 2009, for outstanding trade receivables due from LMK.

In October 2009, John Kang, the Company's former Chairman, Tony Chung, the Company's Chief Financial Officer, and Ricardo Salas, the Company's Executive Vice President, acquired 80,000 shares of the Company's Series A-1 Preferred Stock and 2,000,000 warrants for an aggregate cash price of \$400. The Series A-1 Preferred Stock are convertible into the Company's common stock at a conversion price of \$0.10 per common share. Further, the warrants are issuable into the Company's common stock at an exercise price of \$0.50 per share and expire on October 30, 2014.

14. Subsequent Events

On May 28, 2010, the Company issued \$2,000 of 13% Subordinated Promissory Note ("January 2011 Subordinated Note") due on the earlier date of January 3, 2011 or the date on which all outstanding amounts are due under the Company's 8% January 2011 Notes. Following the due date, the interest on the January 2011 Subordinated Note shall be 15%. The January 2011 Subordinated Note may be repaid in whole or in part at any time without penalty or premium, but is subordinate in right of payment to the January 2011 Notes and may not be paid until after the January 2011 Notes are paid in full. The company may, in its sole discretion, elect to pay all or any portion of the outstanding principal or accrued interest in cash or the Company's common stock or any combination thereof, at a value equal to the lower of \$0.26 per share or the average market price per share for the 10 previous trading days immediately prior to the date the payment is made. As a condition for the January 2011 Subordinated Note, Carlyle Liquid Holdings, LLC, a current stockholder of the Company granted the holder of the January 2011 Subordinated Note a warrant to purchase up to 7,700,000 shares of the Company's common stock at a price equal to \$0.26 per share, which warrant is exercisable for a period of 90-days beginning on the date in which the Company repays the January 2011 Subordinated Note in cash (if it repays in cash).

On June 25, 2010, LMC entered into a Credit Agreement ("Credit Agreement") with Enterprise Bank & Trust ("Enterprise") and retired its loan agreements with Bank Midwest, N.A. The Credit Agreement provides for a total loan availability of \$3,700, consisting of \$1,500 million term loan ("Term Note"), a revolving loan of up to \$2,000 (Revolving Note"), and equipment loans ("Equipment Note") of up to \$200. The Term Note of \$1,500 has a maturity date of June 25, 2013 and bears an interest rate of 7% per annum. Borrowing availability under the Revolving Note is based on a percentage of LMC's eligible receivables and inventory and accrues interest at the rate of the greater of *libor* plus 3.75% or 6%. LMC will make monthly interest payments on the Revolving Note until June 24, 2011, at which point all remaining principal and interests are due. LMC has the right to prepay the Term Note and the Revolving Note and the Equipment Note, in whole or in part, at any time without penalty or premium.

On August 5, 2010, the Company entered into a Master Transaction Agreement with Apple Inc. ("Apple"), pursuant to which (i) Liquidmetal contributed substantially all of its intellectual property assets to a newly organized special-purpose, wholly-owned subsidiary (the "IP Company"), (ii) the IP Company granted to Apple a perpetual, worldwide, fully-paid, exclusive license to commercialize such intellectual property in the field of consumer electronic products in exchange for a license fee, and (iii) the IP Company granted back to Liquidmetal a perpetual, worldwide, fully-paid, exclusive license to commercialize such intellectual property in all other fields of use.

(in thousands, except share data)

(unaudited)

On August 5, 2010, the Company repaid in full all principal and interest on (i) the January 2011 Notes in the amount of \$8,242, (ii) the secured debt under the factoring loan in the amount of \$309, and (iii) the Bridge Notes in the amount of \$314. All security interests in Company assets securing such obligations under the January 2011 Notes and factoring loan were released and terminated.

On August 5, 2010 the Company repaid in full all principal and accrued interest of \$2,046 on the January 2011 Subordinated Note. In connection with the repayment, on August 10, 2010, the Company entered into a Subscription Agreement pursuant to which the Company issued 7,870,307 shares of the Company's common stock for an aggregate price of \$2,046.

On August 5, 2010, the Company appointed Thomas Steipp to serve as the Company's President and Chief Executive Officer. Mr. Steipp was also appointed as a member of the Company's Board of Directors. Upon Mr. Steipp's appointment as the Company's President and Chief Executive Officer, Larry Buffington ceased to serve as the Company's President and Chief Executive Officer, although Mr. Buffington will continue to serve as the Chief Executive Officer of the Company's majority-owned Liquidmetal Coatings subsidiary.

On August 6, 2010, SAGA filed a litigation case against the Company claiming damages of \$3,200 for payment on a loan and for breach of contract in connection with the formation of LSI, a joint venture between the Company and SAGA. The Company is in the process of responding to the claim and working with SAGA to resolve the matter.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report on Form 10-Q.

This management's discussion and analysis, as well as other sections of this report on Form 10-Q, may contain "forward-looking statements" that involve risks and uncertainties, including statements regarding our plans, future events, objectives, expectations, forecasts, or assumptions. Any statement that is not

a statement of historical fact is a forward-looking statement, and in some cases, words such as “believe,” “estimate,” “project,” “expect,” “intend,” “may,” “anticipate,” “plans,” “seeks,” and similar expressions identify forward-looking statements. These statements involve risks and uncertainties that could cause actual outcomes and results to differ materially from the anticipated outcomes or results, and undue reliance should not be placed on these statements. These risks and uncertainties include, but are not limited to, the matters discussed under the caption “Factors Affecting Future Results” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 and other risks and uncertainties discussed in filings made with the Securities and Exchange Commission (including risks described in subsequent reports on Form 10-Q, Form 10-K, Form 8-K, and other filings). Liquidmetal Technologies disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Overview

We are a materials technology company that develops and commercializes products made from amorphous alloys. Our Liquidmetal® family of alloys consists of a variety of coatings, powders, bulk alloys, and composites that utilize the advantages offered by amorphous alloy technology. We develop, manufacture, and sell products and components from bulk amorphous alloys that are incorporated into the finished goods of our customers, and we also market and sell amorphous alloy industrial coatings. We also partner with third-party licensees and distributors to develop and commercialize Liquidmetal alloy products. We have the exclusive right to develop, manufacture, and sell what we believe are the only commercially viable bulk amorphous alloys.

Amorphous alloys are unique materials that are distinguished by their ability to retain a random atomic structure when they solidify, in contrast to the crystalline atomic structure that forms in ordinary metals and alloys when they solidify. Liquidmetal alloys possess a combination of performance, processing, and cost advantages that we believe makes them preferable to other materials in a variety of applications. The amorphous atomic structure of our alloys enables them to overcome certain performance limitations caused by inherent weaknesses in crystalline atomic structures, thus facilitating performance and processing characteristics superior in many ways to those of their crystalline counterparts. For example, our zirconium-titanium Liquidmetal alloys are approximately 250% stronger than commonly used titanium alloys, such as Ti-6Al-4V, but they have processing characteristics similar in many respects to plastics. We believe these advantages could result in Liquidmetal alloys supplanting other incumbent materials in a wide variety of applications. Moreover, we believe these advantages will enable the introduction of entirely new products and applications that are not possible or commercially viable with other materials.

Our revenues are derived from three principal operating segments: Liquidmetal alloy industrial coatings, Liquidmetal coatings application, and bulk Liquidmetal alloy products. Liquidmetal alloy industrial coatings are used primarily as a protective coating for industrial machinery and equipment, such as drill pipe used by the oil drilling industry and boiler tubes used in coal-burning power plants. Liquidmetal coatings application is the service provided for applying Liquidmetal products as a protective coating. Bulk Liquidmetal alloy segment revenue includes sales of parts or components of electronic devices, medical products, and sports and leisure goods, tooling and prototype parts (including demonstration parts and test samples) for customers with products in development, product licensing and arrangements, and research and development revenue relating primarily to defense and medical applications. We expect that these sources of revenue will continue to significantly change the character of our revenue mix.

The cost of sales for our Liquidmetal coatings segment consists primarily of the costs of outsourcing our manufacturing to third parties. Consistent with our expectations, our cost of sales has been increasing over historical results as we further build our bulk Liquidmetal alloy business. Although we plan to continue outsourcing the manufacturing of our coatings, we will internally manufacture many products derived from our bulk Liquidmetal alloys.

[Table of Contents](#)

Selling, general, and administrative expenses currently consist primarily of salaries and related benefits, stock-based compensation, travel, consulting and professional fees, depreciation and amortization, insurance, office and administrative expenses, and other expenses related to our operations.

Research and development expenses represent salaries, related benefits expense, depreciation of research equipment, consulting and contract services, expenses incurred for the design and testing of new processing methods, expenses for the development of sample and prototype products, and other expenses related to the research and development of Liquidmetal alloys. Costs associated with research and development activities are expensed as incurred. We plan to enhance our competitive position by improving our existing technologies and developing advances in amorphous alloy technologies. We believe that our research and development efforts will focus on the discovery of new alloy compositions, the development of improved processing technology, and the identification of new applications for our alloys.

On July 24, 2007, we transferred substantially all of the assets of our Liquidmetal alloy industrial coatings business to a newly formed, newly capitalized subsidiary named Liquidmetal Coatings, LLC, a Delaware limited liability company (“LMC”), and LMC assumed substantially all of the liabilities of the coatings business. The transfer included the thermal spray coatings assets and liabilities acquired under a purchase agreement with Foster Wheeler Energy Services in June 2007. We hold a 69.25% ownership interest in LMC. The results of operation of LMC are consolidated and comprise our Liquidmetal alloy industrial coatings segment for financial reporting purposes.

The following discussion and analysis of our financial condition and results of operations focuses on the historical results of our continuing operations.

Critical Accounting Policies and Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions.

We believe that the following accounting policies are the most critical to our condensed consolidated financial statements since these policies require significant judgment or involve complex estimates that are important to the portrayal of our financial condition and operating results:

- Exchange rate fluctuations
- Warranty accrual
- Allowance for doubtful accounts
- Inventories at lower of cost or net realizable value

- Deferred tax assets
- Valuation of derivatives of warrants and embedded conversion features

Our Annual Report on Form 10-K for the year ended December 31, 2009, contains further discussions on our critical accounting policies and estimates.

Results of Operations

Comparison of the three months ended March 31, 2010 and 2009

Revenue. Revenue decreased \$0.9 million to \$2.7 million for the three months ended March 31, 2010 from \$3.6 million for the three months ended March 31, 2009. The decrease consisted of \$0.8 million from the sales and prototyping of parts manufacture from bulk Liquidmetal alloys to consumer electronic customers as a result of decrease in demand in electronic castings applications and a decrease of \$0.1 million from our research and development contracts.

Cost of Sales. Cost of sales increased to \$2.2 million, or 80% of revenue, for the three months ended March 31, 2010 from \$2.1 million, or 60% of revenue, for the three months ended March 31, 2009. The decrease was a result of a continued change in revenue mix during the three months ended March 31, 2010. The cost to manufacture parts from our bulk Liquidmetal alloys is variable and differs based on the unique design of each product. However, the cost of sales for the products sold by the coatings business segment is generally consistent because the Liquidmetal coatings products are produced by third parties and sold wholesale to various industries.

24

Table of Contents

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased to \$1.3 million, or 49% of revenue, for the three months ended March 31, 2010 from \$1.6 million, or 44% of revenue, for the three months ended March 31, 2009. The decrease was primarily a result of a decrease in professional consulting and contract services expense of \$0.3 million.

Research and Development Expenses. Research and development expenses were \$0.2 million, or 9% of revenue, for the three months ended March 31, 2010 and \$0.2 million, or 7% of revenue, for the three months ended March 31, 2009. We continue to perform research and development of new Liquidmetal alloys and related processing capabilities, develop new manufacturing techniques, and contract with consultants to advance the development of Liquidmetal alloys.

Change in Value of Warrants. Change in value of warrants increased to a gain of \$1.8 million, or 66% of revenue, for the three months ended March 31, 2010 from a loss of \$0.1 million, or 4% of revenue, for the three months ended March 31, 2009. The change in value of warrants consisted of warrants issued from convertible and subordinated notes and convertible preferred stocks issued between 2004 and 2009 primarily as a result of fluctuations in our stock price.

Change in Value of Conversion Feature. Change in the value of conversion feature liability from our convertible notes resulted in a gain of \$0.3 million, or 12% of revenue, during the three months ended March 31, 2010 from a gain of 30 thousand dollars, or 1% of revenue, for the three months ended March 31, 2009, primarily as a result of fluctuations in our stock price.

Interest Expense. Interest expense was \$1.2 million, or 43% of revenue, for the three months ended March 31, 2010 and was \$2.3 million, or 64% of revenue, for the three months ended March 31, 2009. Interest expense consists primarily of debt discount amortization and interest accrued on outstanding convertible and subordinated notes, borrowings under a factoring, loan, and security agreement, a revolving loan agreement, and the Kookmin loan. The decrease was due to certain of our convertible and subordinated notes retired during the second quarter of 2009.

Liquidity and Capital Resources

Our cash provided by operating activities was \$0.2 million for the three months ended March 31, 2010. Our working capital deficit increased from \$13.1 million at December 31, 2009 to \$17.0 million at March 31, 2010. The working capital deficit increase of \$3.9 million was primarily attributable to decrease of cash and cash equivalents of \$0.2 million, increase of long term debt, current portion, of \$4.7 million, increase of accounts payable and accrued expenses of \$0.7 million, and increase of short-term debt of \$0.4 million, offset by decrease of warrant liabilities of \$1.8 million and decrease of conversion feature liabilities of \$0.3 million.

Our cash used in investing activities was \$0.2 million for the three months ended March 31, 2010 for the acquisition of property and equipment and investments in patents and trademarks.

Our cash provided by financing activities was \$0.5 million for the three months ended March 31, 2010. We paid net \$1.5 million in borrowings mainly for a revolving loan agreement executed in July 2007, which were offset by \$2.0 million in borrowings mainly from additional term loan as payment for monthly accrued interest due.

On May 1, 2009, we completed a financing transaction (the "Transaction") whereby aggregate cash of \$2.5 million and principal and accrued interest of \$20.6 million due under the previously issued 8% Convertible Subordinated Notes due January 2010 (the "Prior Notes") were exchanged for 500,000 shares of convertible Series A-1 Preferred Stock with an original issue price of \$5.00 per share, 2,625,002 shares Series A-2 Preferred Stock with an original issue price of \$5.00 per share, and \$7.5 million of new 8% Senior Secured Convertible Subordinated Notes due January 2011 (the "Exchange Notes"). Of the \$2.5 million aggregate cash purchase price. The Transaction was consummated pursuant to a Securities Purchase and Exchange Agreement, dated May 1, 2009 (the "Securities Purchase Agreement"), among the exchanging note holders and investors (collectively, the "Buyers"). The Securities Purchase Agreement gives the Buyers option to subscribe for an additional 1,000,000 shares of Series A-1 Preferred Stock at \$5.00 per share at any time prior to six months from the closing date (the "Series A-1 Option").

25

Table of Contents

The Exchange Notes are due January 3, 2011 and bear annual interest rate of 8% with interest payable in October and April in cash or, at our company's option, in the form of additional notes (in which case the interest rate will be 10%). The preferred stocks accrue cumulative dividends at an annual rate of

8%, which is payable semi-annually. Beginning on the second anniversary of the initial issuance, the dividend will increase to 10%. As of March 31, 2010, we have accrued dividends of \$0.7 million included in accounts payable and other accrued expenses. The dividends are payable in cash or in kind by the issuance of the company of additional preferred stock, only when and as declared by our Board of Directors. On August 5, 2010, we repaid in full all principal and interest on the Exchange Notes in the amount of \$8.2 million, and all security interests on our assets securing such obligations were released and terminated.

The Series A-1 Preferred Stock, Series A-2 Preferred Stock, and Exchange Notes are convertible into the company's common stock at conversion price of \$0.10, \$0.22, and \$0.60 per common share, respectively. We issued warrants to purchase 3,125,007 shares and 42,329,407 shares of our company's common stock at an exercise of \$0.60 and \$0.50 per share to the buyers of the Exchange Notes and preferred stocks, respectively. The warrants will expire in January 2012. The conversion prices and the number of common stock issuable under the preferred stocks, Exchange Notes and warrants are subject to adjustments for anti-dilution purposes.

On May 28, 2010, we issued \$2.0 million of 13% Subordinated Promissory Note ("January 2011 Subordinated Note") due on the earlier date of January 3, 2011 or the date on which all outstanding amounts are due under the Company's 8% January 2011 Notes. Following the due date, the interest on the January 2011 Subordinated Note shall be 15%. The January 2011 Subordinated Note may be repaid in whole or in part at any time without penalty or premium, but is subordinate in right of payment to the January 2011 Notes and may not be paid until after the January 2011 Notes are paid in full. We may, at our sole discretion, elect to pay all or any portion of the outstanding principal or accrued interest in cash or the Company's common stock or any combination thereof, at a value equal to the lower of \$0.26 per share or the average market price per share for the 10 previous trading days immediately prior to the date the payment is made. As a condition for the January 2011 Subordinated Note, Carlyle Liquid Holdings, LLC, a current stockholder of the Company granted the holder of the January 2011 Subordinated Note a warrant to purchase up to 7,700,000 shares of the Company's common stock at a price equal to \$0.26 per share, which warrant is exercisable for a period of 90-days beginning on the date in which we repay the January 2011 Subordinated Note in cash (if we repay in cash). On August 5, 2010, we repaid in full all principal and interest on the January 2011 Subordinated Notes in the amount of \$2.0 million. In connection with the repayment, on August 10, 2010, we entered into a Subscription Agreement pursuant to which the Company issued 7,870,307 shares of the Company's common stock for an aggregate price of \$2.0 million.

Additionally, we have approximately \$0.3 million of principal and accrued interest outstanding as of March 31, 2010, under the 8% unsecured subordinated notes (the "Bridge Notes"), which were due August 17, 2007. On August 5, 2010, we repaid in full all principal and interest on the Bridge Notes in the amount of \$0.3 million.

We have \$0.3 million of outstanding loan as of March 31, 2010 under a factoring, loan, and security agreement with a financing company. In June 2009, we received a formal notice of default from the financing company for repayment of the outstanding loan balance and have entered into a settlement agreement with the financing company whereby it agreed to repay approximately \$100 each month until the outstanding loans and accrued fees have been repaid. As of March 31, 2010, we have not been able to pay the \$100 monthly payments. On August 5, 2010, we repaid in full all principal, interest and fees on the factoring loan in the amount of \$0.3 million, and all security interests on our assets securing such obligation was released and terminated.

We have outstanding liens on assets by our South Korean subsidiary by various creditors for past-due trade payables totaling \$1,378 million, of which \$1,103 are held by creditors in South Korea, as of March 31, 2010. We are currently working to resolve the matter with each creditor by seeking a forbearance or compromise. If we cannot repay the amounts due or obtain forbearance or compromise, the creditors may seek to foreclose on the Company's assets located in Korea. Such a foreclosure would have material adverse effect on our operations, financial condition, and results of operations.

[Table of Contents](#)

Contractual Obligations

The following table summarizes the Company's obligations and commitments as of March 31, 2010:

Contractual Cash Obligations	Total	Payments Due by Period (in thousands)			
		Less Than 1 Year	1-3 Years	3-5 Years	Thereafter
Long-term debt (2)	\$ 8,137	\$ 8,137	\$ —	\$ —	\$ —
Long-term debt of consolidated subsidiary (2)	9,265	595	8,619	51	—
Short-term debt (3)	832	832	—	—	—
Short-term debt of consolidated subsidiary	450	450	—	—	—
Interest payments (4)	3,364	1,723	1,641	—	—
Operating leases and rents	754	374	380	—	—
Dongyang	9	9	—	—	—

(3) Does not include minimum interest and fee payments of \$30.

- (4) Interest payments include accrued and scheduled payments due on long-term debt and long-term debt of consolidated subsidiary with annual interest rates between 7.43% to 14%. Interest payments also include estimated interest on short-term debt and short-term debt of majority owned subsidiary with annual interest rates between 8.48% to 10% with expected maturity of approximately 1 year.

Off Balance Sheet Arrangements

An off-balance sheet arrangement is any transaction, agreement or other contractual arrangement involving an unconsolidated entity under which a company has (1) made guarantees, (2) retained a contingent interest in transferred assets, (3) an obligation under derivative instruments classified as equity, or (4) any obligation arising out of a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the company, or that engages in leasing, hedging, or research and development arrangements with the company.

On June 26, 2006, we entered into a joint venture agreement with SAGA, SpA in Padova, Italy, (“SAGA”) a specialist precision parts manufacturer. The joint venture is named Liquidmetal SAGA Italy, Srl (“LSI”). We also entered into an exclusive manufacturing license agreement for the eyewear industry with LSI. Under the joint venture agreement, we have the option to buy ownership interest in LSI, initially, of 19.9% to up to 50%. In December 2006, we have purchased 19.9% interest in the joint venture. In January 2007 and June 2007, we contributed additional \$0.2 million and \$0.1 million, respectively, into LSI as additional investment. The contribution did not change our 19.9% interest in LSI. Under the licensing agreement, at any time following 18 months after the effective date of the agreement, LSI may exercise its option to sell to us certain business assets including manufacturing equipment acquired under the joint venture. During the fourth quarter of the year ended December 31, 2009, we wrote-off its investment of \$0.3 million in the joint venture due to slower than anticipated growth in the eyewear industry. During 2009, 2008 and 2007, we recognized revenues of \$0, \$0 and \$0.1 million, respectively, of Liquidmetal alloys sold to SAGA for use in the joint venture. There were no alloys sold to LSI during the three months ended March 31, 2010.

[Table of Contents](#)

On August 6, 2010, SAGA filed a litigation case against us claiming damages of \$3.2 million for payment on a loan and for breach of contract in connection with the formation of LSI. We are in the process of responding to the claim and working with SAGA to resolve the matter.

Item 3 — Quantitative and Qualitative Disclosures about Market Risk

We are exposed to various market risks in conducting the business of the Company, and we anticipate that this exposure will increase as a result of our planned growth. In an effort to mitigate losses associated with these risks, we may at times enter into derivative financial instruments, although we have not historically done so. These may take the form of forward sales contracts, option contracts, foreign currency exchange contracts, and interest rate swaps. We have not, and do not intend to, engage in the practice of trading derivative securities for profit.

Interest Rates. We are exposed to market risks relating to changes in interest rates as our borrowings are subject to the volatility of interest rate risk. Fluctuations in interest rates may have a negative impact to any future borrowings.

Commodity Prices. We are exposed to price risk related to anticipated purchases of certain commodities used as raw materials by our businesses, including titanium and zirconium. Although we do not currently enter into commodity future, forward, and option contracts to manage the fluctuations in prices of anticipated purchases, we may enter into such contacts in the future as our business grows and as our purchases of these raw materials increase.

Foreign Exchange Rates. As a result of our operation of a manufacturing facility in South Korea, a substantial portion of our costs will be denominated in the South Korean won. Consequently, fluctuations in the exchange rates of the South Korean won to the U.S. dollar will affect our costs of goods sold and operating margins and could result in exchange losses. Although we do not currently enter into foreign exchange hedge transactions, we may do so in the future as our business grows.

Item 4T — Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Based on an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of March 31, 2010, the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective.

Changes in Internal Controls. During the quarter ended March 31, 2010, there was no change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1 — Legal Proceedings

On August 6, 2010, SAGA, SpA in Padova, Italy, (“SAGA”) filed a litigation case against us claiming damages of \$3.2 million for payment on a loan and for breach of contract in connection with the formation of LSI, a joint venture between us and SAGA. We are in the process of responding to the claim and working with SAGA to resolve the matter.

Item 1A — Risk Factors

None.

Item 3 - Defaults Upon Senior Securities

We have \$0.3 million of outstanding loan as of March 31, 2010 under a factoring, loan, and security agreement with a financing company. In June 2009, we received a formal notice of default from the financing company for repayment of the outstanding loan balance. As of the date of this report, we entered into a settlement agreement with the financing company whereby we agreed to repay approximately \$0.1 million each month until the outstanding loans and accrued fees have been repaid. As of March 31, 2010, we were unable to pay the \$100 monthly payments. On August 5, 2010, we repaid in full all principal and interest on the factoring loan in the amount of \$0.3 million. All security interests in our assets securing such obligation under the factoring loan were released and terminated.

Item 4 — Submission of Matters to a Vote of Security Holders

None.

Item 5 — Other Information

None.

Item 6 — Exhibits

The following documents are filed as an exhibit to this Report:

<u>Exhibit Number</u>	<u>Description of Document</u>
31.1	Certification of the President and Chief Executive Officer, Thomas Steipp, as required by Section 302 of Sarbanes-Oxley Act of 2002
31.2	Certification of Principal Financial Officer, Tony Chung, as required by Section 302 of Sarbanes-Oxley Act of 2002
32.1	Certification of Principal Executive Officer, Thomas Steipp, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of Sarbanes-Oxley Act of 2002
32.2	Certification of Principal Financial Officer, Tony Chung, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of Sarbanes-Oxley Act of 2002

CERTIFICATION

I, Thomas Steipp, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Liquidmetal Technologies, Inc. for the quarter ended March 31, 2010;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) and internal control over financial reporting (as defined in Exchange Act Rules 13a-1f(f) and 15d-1f(f)) for the registrant and we have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonable likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonable likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
